MODERN INTRIGUE

For the trendsetter, this eye look is a twist on a standard eye shadow technique. It plays light and dark shades against each other for a very intriguing and mysterious look.

1

Sweep a light shade across your eyelid from the lash line up to the crease (a & b) using an eye shadow brush.

2

Apply a medium shade from the crease up to the brow (c) and at the base of the lower lashes (d). Blend the edges where these colors meet to create a soft transition from the light to the dark shade.

3

Finish the look with your favorite dark shade of eyeliner and customized mascara.

4

A light shimmer shade will give a dramatic feel to this look—it's perfect to create evening glamour.

Brings out the beauty of all eyes, but especially appealing for small and almond-shaped eyes.
